

TUBE TENSION FABRIC WALL

Our tube tension fabric systems are a great alternative to standard backwall displays. Quickly assembled in just 5 minutes, slide the tubes together to make the frame and lock in place with a push button snap. Then, simply pull the pillowcase-like graphic over the frame and zip it shut. The zipper, hidden from view, tightens the stretch fabric beautifully displaying your image. Disassembled, this lightweight frame and graphic fits inside its included bag.

COUNTERS

Our Tube Tension Fabric Counters are a new generation of pop up counters. Utilizing stretch fabric and a simple frame this system literally clicks together in minutes and looks amazing.

The stretch fabric is printed full width and full height and includes a zipper in the back for access. Beautiful organic curves are created that is almost impossible with traditional promo counters and are by far the easiest tradeshow counter system to transport once packed down into a small lightweight carry case.

COUNTER SERIES

BOOTH SOLUTION

10ft /20ft Trade show display exhibition booth solutions It is a versatile, reconfigurable exhibit system. 10ft /20ft standard booth solutions pre-defined 10ft /20ft wide inline kits can reconfigure easily as individual banners with no extra parts, pieces or packaging. 10ft /20ft standard booth solutions kits are comprised of various aluminum tube frame banners with unique curves, shapes and corners. Frames feature printed pillowcase fabric graphics that slip over easily and zip at the bottom. Linking clips connect the frames together at a 180-degree angle and universal feet connect the tube frames at the bottom. Displays come in durable, portable carry bags and optional expandable cases are available as an upgrade.

BOOTH SOLUTION

OUTDOOR DISPLAY

A pavement display, sidewalk sign is an ideal way to draw your customers into your business. This double side outdoor signage is the perfect sidewalk sign to advertise sales, promotions, or current specials you are offering. The front-opening aluminium snapframes makes changing your message extremely quick and simple. Anti-glare PVC poster covers ensure clarity of message. The unit has a carry handle and wheeled compact moulded base that can be filled with water or sand. Heavy duty mounts ensure stability by allowing panel defection in the wind.

FULL ALUMINIUM FLYING BANNER

Our flying banner offer a groundbreaking way to promote brands and organizations, which will attract the eyes of passersby with its constant movement. It features a curved fabric flag with a large advertising space for your logo and other custom advertisements.

Check Points

1. Fit Template Dimensions?

Double-check your graphic dimensions to make sure it matches the most current template as well as product you are purchasing

2. Good Resolution?

In Photoshop, view your graphic at 100% scale. This is how your artwork will look when printed.

3. CMYK Mode?

Your graphic must be in CMYK mode. Colors may differ in RGB mode. If your graphic contains critical spot colors, ask us about our PMS Color Matching Service.

4. Proof Reading?

It is your responsibility to proof-read all your text. Please proof-read before you submit or approve your graphic file.
